YOUR REF:

Attention: All Bidders

Dear Sir/Madam,

OAB-IT-4191 - Implementation & Commissioning of Enterprise Content Management, Data Loss Prevention & Accompanying Hardware Infrastructure

Clarification No 1

Please find below CEB's reply to query from a prospective bidder in respect of the abovementioned bidding exercise.

Query 1

My questions/points with regards to the tender - *"Implementation and Commissioning of Enterprise Content Management, Data Loss Prevention & Accompanying Hardware Infrastructure"*

1. By Enterprise Content Management do you mean a CMS - Content Management System?
2. Episerver is a Global Leading Digital Engagement Platform (CMS, E-Commerce and Digital Marketing). Thus we would only be able to deliver on the Enterprise Content Management Part.
3. Will it be necessary for one company to deliver all three parts of the tender - Enterprise Content Management, Data Loss Prevention and Accompanying Hardware Infrastructure in order to partake in the tender.

I hope this clarifies. We would be delighted to partake in the tender, because we can deliver on the Enterprise Content Management side of things, but unfortunately we don't specialise in Data Loss Prevention and Hardware Infrastructure. We can however through a joint venture or strategic alliance deliver through one of our Partners if needed.

Reply 1

By ECM, the CEB is specifically targeting Digitalization, Document Management, Workflows (Automation), portals and forms. Unless the supplier sees related CMS functionality, the CEB is not limiting this tender to usually web-centric CMS.

Bidders are required to quote for all the parts as defined in Section V - Scope of Service of the bidding document. However, Parts 2-4 being optional may or may not be awarded.

A bidder may submit a bid through Joint Venture in accordance with ITB 5.4 of the bidding document.

Kindly acknowledge receipt of this letter addressed to the Chairman Tender Committee at ctc@ceb.intnet.mu at latest by **22 June 2018**.

Yours faithfully,

R. Chowdharry
Supply Chain Manager
