

Central Electricity Board (CEB)

COMMUNIQUÉ

Small Scale Distributed Generation (SSDG) Net Metering Scheme

The CEB wishes to inform the public that the earmarked capacity of 5 MW for the above mentioned scheme has been attained and, henceforth, the CEB will not be able to accept any more applications.

We thank all those who have shown interest in this project. We further wish to assure the applicants who have not yet received their “Letter of Intent” authorising them to install their Renewable Energy System that they will receive same once their applications have been approved accordingly.

The public is also informed that, following amendments brought to the Electricity Act pursuant to the Finance Act 2016, the SSDG procedures for connecting a Renewable Energy System to the CEB grid has been amended accordingly. More detailed information on same is available on CEB’s website at ceb.intnet.mu
